Irene Gomez

SPAIN

Class of: Attended in 2017/18 for junior year

Home Country: Spain

Attended OCS for: 1 Year

While at OCS I was involved in: I was involved in many activities, mainly sports. I joined the volleyball, basketball and soccer team. I also went to all the school trips like spring hills and the international retreat. I also went to the school dances, homecoming and prom. I tried to join everything I could, and that's what made my experience at OCS even better.

Currently Studying: University of León, Spain,
Biotechnology

Why did you choose OCS: I was assigned to the school by my organization, but I was blessed with OCS and I wouldn't have chosen otherwise.

What is the best thing about your experience at OCS: I can't choose just one thing - OCS was a big part of my experience in the States. I enjoyed homecoming week, watching OCS games, the school dances, and even the talks with my friends between classes. I really miss OCS.

Why would you recommend OCS: At OCS everybody takes care of each other. It's a small school so you can get to know everybody which makes it easier to make new friends. The relationships with the teachers was awesome. They were always willing to help both outside and inside the classes. Also you can get involved in different activities. OCS is always trying to make their students learn and enjoy school at the same time.
