

2018-2019 INTERNATIONAL STUDENT TUITION SCHEDULE

Tuition Includes: High School Retreat, International Retreat, Athletic Fee, Lunch Service, Uniform Stipend, Book Stipend, Compulsory Health Insurance, International Student Field Trips, International Program Activities, Mandatory Class Fees, Academic Support including Level 1 Tutoring	22,450
Homestay Fee	8,000
TOTAL	\$30,450.00

The cost of attendance for the 2018-19 academic year should also factor in the following additional costs that are not part of your tuition:

1. iPad* – Oakland Christian School utilizes iPads in every classroom. All of our students, domestic and international, are required to have an iPad. The iPad can be brought from home or purchased once the student arrives. It's important to note that the iPad must be set up in English and have an English iTunes account associated with it. Students will be given iTunes cards to purchase any apps or books they will be required to download on the iPad.
2. United States cell phone. The student will need a phone with a US number so that the host family will be able to communicate with the student.
3. Uniforms – New students will be given a \$400 stipend to spend on uniforms. Any uniforms they wish to purchase over and above that will be at their own expense.
4. The host family will provide housing and meals, and the school will provide the student with a lunch card for school lunches. Activities with friends, clothes, extra personal expenses, etc. will be at the student's expense.
5. Christmas Vacation – Oakland Christian School strongly advises the students to travel home over Christmas break. It may be possible for the student to stay in the United States for these two weeks, however, there will be an additional Homestay charge of US \$800.

The amount of extra spending money will vary according to the student's individual needs. Parents should assess their child's needs and ensure that their children have reasonable access to funds to cover extra expenditures.

*OCS iPad Requirements

- iPad (4th generation or higher, 32GB or more)
- iPad Air (32GB or more)
- All iPads need to be capable of running IOS version 11 or higher
